Spring Newsletter 2024

From our Trustees

Greetings to all our supporters! We are sure you are as relieved as we are that the warmer weather is finally on its way. Along with the rise in temperature comes the kitten season and we already have kittens in our care.

It has been a busy year so far. We took 72 cats into our care in the first quarter and spayed/neutered 38, 10 of which related to outdoor cat, trap, neuter and release cases. In common with other rescues, our adoption numbers have been lower than usual at 27. We have given financial aid to 16 cats and offered welfare advice to many more. In the middle of all this, our Operations Manager, Hayley, managed to get married and we wish her and Gem all the best for the future!

Finances remain tough so we welcome your donations and any fundraising ideas. Please come and support us at our stall at Chobham and Cranleigh over the summer and don't forget that microchipping for cats becomes compulsory in June.

HFC Partnership with Battersea

We are pleased to announce that *Here For Cats* has entered into a partnership with the Animal Partnerships Team at Battersea Dogs and Cats Home. This team at Battersea has been set up to help smaller rescue charities to re-home a specific cat or dog because they need a different type of home, have limited space available or because they have a long waiting list of animals in need of new homes.
